BIOGRAPHY

Kayur is an Award-Winning Rehabilitation Case Manager with 13+ years of professional experience working within the UK healthcare, rehabilitation and case management industries.

Kayur specialises in the rehabilitation case management of people who have experienced devastating life-changing injuries following major trauma. He has extensive experience, in particular the management of adults who have become socially excluded following multiple, serious and highly complex orthopaedic, musculoskeletal and psychological injuries. Kayur also has experience working with amputees, those experiencing persistent pain conditions and people with mild brain injuries.

Kayur's strongest attributes are attained through his successful management of orthopaedic, musculoskeletal and sports injuries. His clinical understanding goes beyond just the physical impact but also the surrounding mental health issues too.

Kayur appreciates and respects each of his clients unique and holistic needs. He creates a clear picture of their current circumstances and obstacles, before providing evidence-based, functionally-relevant rehabilitation recommendations to enable goal achievement. Kayur prides himself on his ability to implement enhanced, person centred and goal focused rehabilitation programmes and outcome driven case management.

This is reflected in a large number of his previous clients achieving positive outcomes, including independence in daily activities and/or return to work/vocation, that is objectively evidenced through service outcome data.

PROFESSIONAL EXPERIENCE

Prior to working as a Case Manager, Kayur provided physiotherapy assessment and treatment, injury management, rehabilitation through functional approaches and designed and implemented return to work programmes for employees of large corporation. In addition to this, he also undertook workplace ergonomic assessments, implemented reasonable adjustments, and provided absence management consultancy.

Kayur has also previously provided physiotherapy for professional sportsmen and women at national and international level, as well as young athletic populations (aged 8-17 years). This ensured they were at their most optimal condition to enable them to fulfil their performance potential whilst in competition.

In order to maintain his hands-on skills and ongoing application of rehabilitation principles, Kayur continues to provide physiotherapy consultancy to private clients that includes British Athletics.

WHAT PEOPLE ARE SAYING ABOUT KAYUR

"You really helped me to get where I am today after a close to death experience. Well done!"

Rehabilitation Client

"Kayur's jointly instructed rehabilitation intervention has proved extremely effective and of considerable benefit to both instructing parties. His support and encouragement has also undoubtedly been invaluable to a seriously injured claimant and to his family at a really difficult time.

Kayur himself has a tremendous 'can do' energised attitude. He has demonstrably gone above and beyond the traditional case management remit in order to support and enable the client to already make remarkable progress towards achievement of some ambitious personal goals.

Not only does Kayur have a wide range of professional knowledge and experience, but also he has introduced some impressive professional contacts into the rehabilitation regime to excellent effect. His report writing is comprehensive, informative, and timely.

Overall Kayur's case management intervention has been much more than merely effective and efficient. I wish him well and have no hesitation in endorsing his services"

Technical Claims Handler, Insurance Company

"We have now worked with Kayur on a number of complex injury cases over the last 12 months.

It is a delight to work with Kayur – he is a proactive case manager who is skilled at identifying the key aspects of a client's rehabilitation programme and selecting the best professional team to support the client.

As someone who shares our passion for enabling the client to reach his or her post injury goals, it is a pleasure to work collaboratively with a focus on client-centred care.

We look forward to continuing our work together in the future"

Rehabilitation Provider

"I have worked with Kayur on some recent matters and have found him extremely pro-active and passionate about his clients. He has fought for their best interests throughout and we have had some exceptionally good results for the clients in terms of support and rehabilitation. His updates are frequent and helpful. Overall I would be happy to recommend him to anyone in the industry"
