BIOGRAPHY

Krystal is a qualified senior General Nurse and Psychotherapist with 26+ years of professional experience in caring for adults with complex needs within the NHS, HSE, private, case management and vocational rehabilitation industries.

Krystal has worked in a variety of healthcare settings including Trauma and Orthopaedics, Plastics, General Surgery, General Medicine, and has senior management experience. She has also worked with people with acute and complex surgical needs.

Krystal commenced her career as Rehabilitation Case Manager in 2005. She worked for a large organisation managing a high volume of personal injury cases of varying severity, developing the ability to cultivate and maintain excellent relationships with key stakeholders including insurers and solicitors, as well as adopting a Client Relationship Manager and Assistant Vice President role.

Krystal's strongest attributes are attained through her extensive experience in managing rehabilitation programmes for adults with serious and catastrophic injuries and complex presentations including acquired brain injury, amputation, pain management, peripheral nerve injury, orthopaedic polytrauma, and severe post-traumatic stress disorder.

Krystal's organisational skills assures optimal contact with all parties, goal setting, and enabling positive outcomes. Her knowledge and understanding of facilities available in the public sector also enables Krystal to confidently provide advice on benefits, accessing facilities, and liaise with housing associations, ensuring clients are supported in the best way possible.
